Oberflächentechnik

„From pretreatment to a perfect finish.“

Powder coating in accordance with quality standards

- Coating in accordance with GSB and British Standard.
- High resistance to corrosion and weathering.
- Smooth, durable surfaces.

Coating of large parts

- Components up to 8000 x 2400 x 2800 mm.
- Max. weight: 1,000 kg.
- For large structures and industrial components.

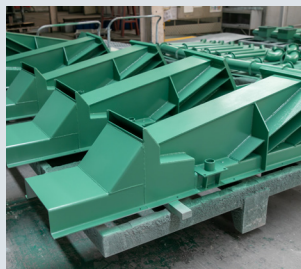

Special Pre-treatments

- Pre-anodizing improves coating adhesion.
- Chromating for aluminum surfaces.
- Chromium-free passivation as an environmentally friendly alternative.

Coating of profiled bars

- Components up to 6800 x 500 x 2000 mm.
- Profile bars up to 7,000 mm in length
- Max. component weight: 75 kg.

Pre-treatment Oversized

- Components up to 6800 x 1000 x 2100 mm.
- Pre-treatment by degreasing and pickling.
- Chromating for corrosion protection.

Mechanical surface treatment

- Sanding, brushing, polishing.
- Steel shot blasting cleans and roughens surfaces.
- Paint stripping removes old coatings.

Chemical pretreatment

- Degreasing removes oil and grease residues.
- Wood stain cleans and prepares the surface.
- Chromating / chrome-free passivation for better corrosion protection.

Two-tone coating

- Two-tone powder coatings are available.
- Clean color transitions achieved through masking.
- Suitable for architectural components.

Additional Services and Certificates

- Film wrapping and strapping for transport protection.
- Certifications: Qualanod, GSB, OFI CERT.
- Quality Management in accordance with ISO 9001.

OBER- FLÄCHEN- TECHNIK

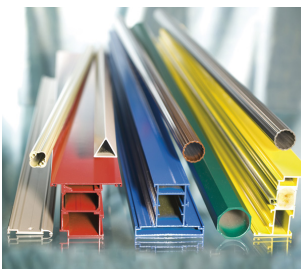

Powder coating and
anodizing for metal
components

„Quality since 1956 – a third-generation family business.“

Company History

- Origins in a metalworking shop & anodizing plant (1948).
- A shift in focus toward surface technology in the 1950s.
- Now an independent company, but part of the AGRU Group.

Core Competencies

- Anodizing, powder coating, mechanical surface treatment.
- State-of-the-art processes all in one place in Waldneukirchen.

Values & Philosophy

- Family-owned with a long-term focus.
- Strong customer focus and partnerships.
- Specialization instead of mass production.

Quality & Certification

- Certified quality standards at the facility.
- Ongoing reviews to ensure the highest process quality.
- Surface treatment processes that comply with standards and have been tested.

Sustainability

- Focus on resource conservation and efficient processes.
- Measures to reduce emissions during operations.
- Involvement in sustainable industry and environmental initiatives.

Made in Austria

- Top quality – made in Upper Austria
- Decades of experience and top-notch expertise

Metal finishing since 1956
